

M-Series 6-in-1 Fibre & CO2 Laser System

The ultimate laser system, offering you 6 powerful operations in one compact machine, including: CNC fibre laser cutting, fibre laser welding, metal rust removal & cleaning, handheld fibre laser cutting, CO² laser cutting and CO² laser engraving.

By eliminating the need for multiple machines, slashing costs with 5x faster welding and delivering razor-sharp 0.02mm precision, the M-series makes high-performance laser processing of multiple materials more affordable and accessible than ever!

Fibre laser cutting, welding and cleaning

Mild steel
Stainless steel
Aluminium
Brass
Zintec
Galvanised steel
and more...

CO² laser cutting and engraving

Plywood
MDF
Acrylic
Leather
Slate
Paper
and more...

M3 Pro

Laser type	Fiber Laser + CO ² Laser
Laser Power	1,200w Fiber Laser + 80w CO ² Laser
Functions	Welding / Cutting / Rust Removal & Cleaning / CNC Metal Cutting / CO ² Cutting / CO ² Engraving
Welding Thickness	0.2 - 5 mm
Cutting Thickness	Up to 10mm with 1,200W Fiber Laser Source / Up to 20mm with 80W CO ² Laser Tube
Working Area	620mm x 620mm
Max Working Speed	600mm/sec
Positional Accuracy (x/y)	±0.02 mm
Maximum Acceleration	0.6G
X-axis Travel	760mm
Y-axis Travel	620mm
Z-axis Travel	50mm
Laser Safety Class	Class 4 (class 1 enclosure when using as a gantry based system)
Power Requirements	220V 1ph @ 24A
Wavelength	1,080 ± 10 nm
Assist Gas	*Oxygen / Nitrogen / Argon
Cooling Method	Air Cooling & Water Cooling
Machine Dimensions	620mm x 355mm x 610mm + 1250mm x 980mm x 950mm
Machine Weight	300kg
Cable Length	8m

M3 Ultra

Laser type	Fiber Laser + CO ² Laser
Laser Power	1,200w Fiber Laser + 130w CO ² Laser
Functions	Welding / Cutting / Rust Removal & Cleaning / CNC Metal Cutting / CO ² Cutting / CO ² Engraving
Welding Thickness	0.2 - 5 mm
Cutting Thickness	Up to 10mm with 1,200w Fiber Laser Source / Up to 25mm with 130w CO ² Laser Tube
Working Area	1380mm x 920mm
Max Working Speed	800mm/sec
Positional Accuracy (x/y)	±0.02 mm
Maximum Acceleration	1G
X-axis Travel	1450mm
Y-axis Travel	960mm
Z-axis Travel	60mm
Laser Safety Class	Class 4 (class 1 enclosure when using as a gantry based system)
Power Requirements	220V 1ph @ 24A
Wavelength	1,080 ± 10 nm
Assist Gas	*Oxygen / Nitrogen / Argon
Cooling Method	Air Cooling & Water Cooling
Machine Dimensions	620mm x 355mm x 610mm + 2185mm x 1780mm x 1100mm
Machine Weight	610kg
Cable Length	8m

Prices from (excl VAT) £14,295

£15,995

*A supply of assist gas is required to cut, weld and clean mild steel, stainless steel & aluminium (no gas is required for non-metal cutting & engraving)

Included as standard

- Windows software and drivers
- Pre-configured and fully editable material library
- Auto-focus cutting head
- Capacitive height control
- Integrated red dot pointer
- Integrated cooling system
- Air assist, including integrated compressor
- Removable slats for supporting material
- 12 months parts and labour warranty (UK mainland only. Excluding consumable items)
- Unlimited technical support

Optional extras

- Filtered extraction system, with separate spark arrestor unit
- Exhaust to atmosphere cowl
- Rotary attachment for cylindrical cutting & engraving
- Welding helmet
- High pressure compressor for metal cutting without oxygen or nitrogen
- On-site training
